## NOTES OF THE WEEK.

The bark R. C. Wylle sails to-day at 2 P. M. for San Francisco-the only chance to send letters East for a month, perhaps.

The agricultural gardens property and 22 eres of land south of Punchbowl Hill, all owned by the government, are advertised by Mr. Adams for sale on the 19th of September.

The steamer Macgregor is overdue from San Francisco, and may be telegraphed at any bour. On her trip down in January last, she made the passage bither in eight days and twelve hours. She has evi dently been detained at San Francisco, for what cause no one can tell.

Accident.-His Excellency Wm. L. Green met with a serious mishap on Saturday last, while riding From the South, we have to report the arrival on the 21st | in from his residence in Nunann. His horse atumsteamer Mikado, 19 days from Sydney with a small | bled and fell on his leg and ancie, which were severely bruised, and parrowly escaped a fracture Mr. G., will probably be able to get about again in

A SHARY COUNTRY .- We see it stated that during the year 1878 there were 47 earthquakes recorded in New Zenland, of these 35 were experienced in the province of Wellington, 12 in the town of Wellington, and 23 at Wanganui. Throughout the length and breadth of the rest of the colony only 12 shocks were experienced.

Post Office Savings Banks were established in the Colony of New Zealand on the 1st of February, 1867, and at the end of that year the balance at

We congratulate our worthy friend Mr. Henry R. Macfarlane on his appointment as Acting Consul for Denmark, which if not the most power ful of the European kingdoms is certainly one of the oldest and most distinguished. We feel assured It cords wood.

Schr Kenni Ana, Knukine, from Koolan. Carps: 68 that so long as the honor of the King of Denmark is entrusted to the care of his new representative here, it will be sucredly guarded.

THE STABBING APPRAY -The case of the sallor Morrow, of the U. S. Ship Benicia, charged with aseault with a deadly weapon, was, on Monday, brought before Justice Harris, sitting as Judge of the Circuit Court, and the prisoner was remanded to custody to await trial at the October term of the Supreme Court. Ball was fixed at five bundred dollars. but we understand he has not yet been able to obtain it. The wounded men, Messrs. Speckman and Gertz, are both improving and will recover.

The steamer Mikado made, on her last trip from Sydney, the shortest run yet performed by any of the vessels of the new line between Sydner and Honolulu-in seventeen days sailing time. Captain Behr Hob Roy, Jim, from Koolan. Carpo: 65 bags Moore hoped to report his ship at San Francisco in 18 bogs oben, 2 hides, 6 bble pet, 2 bogs, 2 feer we may expect better time between Sydney or hoths bananae.

NATIVES KALLED. - A letter from Waishole, Koolau, on this island, states that three natives ascended the mountain back of Kualoa vesterday morning, bunting goals. Two of the party made fast to two goats, and while endeavoring to secure them fell ver the precipice, and were killed instantly by the fall, which must have been several hundred feet. Their corpses were found among the rocks horribly mangled, and were carried off and buried by their

COAL IN NEW ZEALAND -The Southern Crom of Auckland, says: "A splendid sample of coal has been left at our office, the product of the Kawakawa mines. This sample has been taken out of the new winge just commenced to be worked upon. We are informed that there is practically an unlimited supply of this sample; if so, we may look forward to our market being entirely supplied at no distant date with coal taken from this mine, and to a cessation of importations from Newcastle.?'

VERY PUNCTUAL .- The old mail man, whose horn toots so greatly to the annoyance of the Advertiser as he leaves on his Oahn circuit, every Monday morning at 10 o'clock, or a few minutes after, re turns into town again every Tuesday afternoon presetually at half past three o'clock. Those who live in Koolan and at other places on his route around Oshu say that there is no sound so pleasant to them as the postman's hore, announcing letters and papers from the metropolis. The boatboy's shout of a "Steamer coming" is not more welcome Honoluluans than is the music of his hora to Koolsuans.

SALE OF BARK COMET.-This vessel, employed for many years as a packet between Honolulu and San eo, has been sold to parties in New Zealand for \$12,000. Captain Shepherd, who took her to that colony, returned to San Francisco in the Mikado. In the Auckland Herald we find the following reference to her: "The clipper barque Hokulele, which arrived here July 11th from Paget Sound, with a cargo of over 200,000 feet of sawn and dressed North American lumber, has, we hear, been bought by Mesers. Holdship and McIlroy, who have purchased both ship and cargo. The captain reports ber to be a very fast sailer, having frequently run 12 knots per hour for days together. She has splendid accommodation for passengers, having state-room secommodation for no less than fifty lu the saloon. period 2000 barrels of sperm oil, white at over £16,000.

The American bark William Gifford arrived in port July 25. She is from New York, and called in to Danedin, baving encountered an extremely boisterous passage to that port. She has been perchased by Captain Rowman of Danedin, and will be cantinued in the whaling service.

The schemer Ivaniae arrived at Auckland July 25th, from Tonga and canona, inving left Tonga July 7th. July 16th she spoke the wusling berk Hinter, last from Bay of Islands, with 250 barrels of sperm oil on houst.

W. C. Jones for Petitioner. In the matter of the Estate of Johannez Beraz, deceased-Receipts baving been filed by the administrator from the heirs of decedent for the balance, as shown in the account, of \$6628.87, and also for the articles specified in schedule "C," as ordered by Mr. Justice Widemann on the 20th June, 1873, the Court ordered the administrator discharged

and his bond cancelled. Aug. 19-in re the Guardianship of Aboll Victoria Kelk, a minor child of E. J. Kelk, deceased-Petition of Mrs. Louisa Wood for the appointment of a guardian of the said minor. The Court, with the onsent of the minor, who is over 13 years of age, and of Mrs. Wood, appointed Mr. A. Atkinson guardian of the person of said minor upon his filling a stipulation to maintain and educate said mino until she arrives at her majority. No bond required, it having been shown that the minor has no property. Aug. 20-Estate of George Elliott, deceased-Pc tition for settlement of accounts by Capt. Daniel Smith, executor of the will of the above testator. The Court examined the accounts and compared same with the vouchers, and being found correct the same was passed and the executor discharged. Aug. 20-Estate of Kila, deceased-Petition of Manuia (w.) for letters of administration. After hearing the testimony, the Court did not think the petitioner a proper person to administer the estate, and appointed J. K. Usauna, administrator, to file bond with surety for \$300. Notice to be given to

the heirs and creditors of Kila and his wife. The Administrator to report his proceedings to the Court on the third Tuesday in December next. Proof of Will of Nahalan (k.) deceased—Petition of Kenon (k.) for probate of will of deceased. Also application by Aiawali (k.) and Kamakaka! (w.) for letters of administration on same estate. The Court admitted the will to probate, which disposed of the application for letters of administration. A. S.

Hartwell for the will; E. Preston for Administrator who noted an appeal to a jury.

In the House of Commons, discussion of Dr. Butt's Home Rule motion was resumed. Daviel O'Donoghue, member for Traice, said the Home Bule movement was a miserable compromise, concerted by those who did not dare to face the penalties of Fenianism. He acknowledged the desire of England to conciliate Ireland, and said perseverance in the agitation would be in defiance of gratitude, justice, and common sense. He said that the ultimate object of the leaders sense. He said that the ultimate object vital force a of the movement was to incite Irishmen to force a repeal of the union, and their success would plunge Ireland into a civil war and annul the recent progress Ireland into a civil war and annul the recent progress Ireland into a civil war and annul the recent progress. in that country. He said, further, that if England continued to remove every pretext from the plea of misgovernment in Ireland, the result would be a disgraceful failure. He firmly believed that its suc-cess would bring rain to the interests of every man in

Robert Lowe, member for the University of London. said the establishment of a local Irish government would involve the necessity of similar bodies in Scotland and England, and the result would be constant

Disraeli was unable to agree that Ireland had the right to a greater amount of self-government than Scotland or England. He demonstrated the groundlessness of the complaint that Irishmen were not ap-pointed to high offices under the Government, and denied that Ireland was treated as a conquered comtry. He said that two separate Parliaments would be constantly in collision; that the minority in the Irish Parliament would be always appealing to the imperial Parliament. He opposed the motion because it was injurious to both countries in a great crisis of the world, which was nearer than some supposed. He wished the people to be united. To accept this motion would produce disintegration in England, and might result in the destruction of the empire. Messrs, McCarthy, Mitchell, Nolan, The O'Connor

Don, and others spoke in support of the motion. At a late hour the House divided, and Dr. Butt's esolution was rejected by a vote of 61 ayes to 458

Decrease of Population.

A census of the aborigines of New Zealand, called Maories, has recently been taken, from The King vs. Wahinealoha-Perjury. Indictment | which it appears that there remain of this once numerous and powerful race only 46,016. In his paper on the native race of New Zenland, published in the New Zealand Annual Hand Rook victed. Sentenced to 2 months' imprisonment and Mr. McLean states that they have decreased from 400,000 in 1820 to 46,000 in 1874. At the present rate the race will be extinct in a very few years. A Colonial paper commenting on the census, gives expression to the following

singular and selfish sentiments : "It is not our intention at present to enlarge upon the political and social reflections naturally suggested by these facts. There is, no doubt, much to be said about the aspect of sadness presented by the rapid decay of a race so vigorous, and, in some respects, so worthy of regard, as that of the aborigines of this colony. But, on the other hand, it is impossible to disregard the fact that the weakness of the natives is, and is likely for very long to be, the security of the colonists. It is doubtless a pity that made, the Feench officials have thought it necessary it should come to this; but to this it certainly has come; and it would be only a display of false sentiment to affect a regret for the decay of a race whom strength is the enemy of progress and the danger of the colony. It is possible indeed that a remount of the native race may survive the ordeal of civilization and we presume there are few, if any, colonists who would wish it otherwise; but at the same time we cannot suppose there are many who, viewing either our past or present relations with the race, will re sion, and a torch-light demonstration and banquet gret the decadence of the Maori people evidenced

Beauts, July 27th.—Dr. James Wifskath, Bishop of Posen, has been arrested for violation of the Ecclesiastical law, and condemned to fifteen months imhave been sacredly observed, and every effort made to enable them to maintain their independence, is in the Hawaiian islands, where native rule, assisted with foreign counsel, has established a government that guarantees security to life and property. This is in a large measure due to the influence of the American teachers who have resided here during the past fifty years. If we have not yet found the way to increase our population and give an impetus to our national prosperity and growth, like our Anglo-Saxon neighbors around us, it is chiefly because we have not yet secured the right men to guide the ship of State, possessed of sufficient originality to devise, and force of character to execute whatever policy may be deemed the best to adopt.
